

No Touch Thermal Solution

## Online *Infrared* Thermometer

### Hardware Specification:

Measurement range: 500-1400 °C

Distance to spot ratio: 100:1

High accuracy:  $\pm 1\%$  of the measured value or  $\pm 1^\circ\text{C}$

Resolution:  $1^\circ\text{C}$

Response time:  $< 200\text{ms}$

Length of cable: 1.5 m

Connection: WiFi

Protocol: TCP/IP

Display: Graphic LCD

Power: 24VDC/1A

### Software Specification:

Web Base Application

Temperature / time reporting

Admin panel

Warning speaker

Display the temperature graph
